

## 02.08.2016 Dana Aftermarket to Display Victor Reinz® Sealing Products at Automechanika Frankfurt 2016

Dana will be exhibiting at Automechanika Frankfurt 2016, taking place Sept. 13-17, 2016, displaying its extensive aftermarket product portfolio, including Victor Reinz® sealing solutions for light, commercial, and off-highway vehicles. Attendees can view Dana's premium sealing solutions in booth G91, hall 3.0; previously, Dana's exhibit space was located in hall 5.0.

Dana's presence at the global fair offers direct access to not only Dana's premium technologies, but on-site technical experts available to customers from every region. Since the last Automechanika Frankfurt in 2014, the Dana Aftermarket has released more than 2,200 new parts. Many of the parts, complete with newly redesigned packaging, will be showcased within the digital content display at Dana's booth.

In addition, Dana's exhibit will display an Audi V6 3.0l TFSI engine, which features Dana's Victor Reinz Multi-Layer Steel (MLS) Power Wave cylinder-head gasket. The three-layer gasket is stamped from spring steel to form functional gasket layers, and utilizes Dana's patented

Wave-Stopper™ sealing technology, consisting of multiple concentric waves, and full beads for additional macro sealing around the combustion chamber to prevent leakage. The distinct properties of the gasket are optimized to maintain high-pressure sealing even at the most extreme temperatures and engine forces, and allow it to be tailored to suit almost any engine configuration.

For many years Dana has supplied cylinder-head gaskets for Audi's V6 gasoline engine program. The gaskets can be found in Audi's A4/S4, A5/S5, A6, A7, Q5, and Q7 models since 2012.

Dana's continued presence at Automechanika emphasizes the company's commitment to offering advanced sealing technologies that meet customer needs and offer high-quality and top performance standards for original equipment solutions.

Those visiting Dana's exhibit booth also can view the company's recently introduced online catalogs, which provide instant access to the comprehensive Victor Reinz® product ranges. The digital catalogs allow customers to view Dana Aftermarket products, complete with technical bulletins, specifications, and installation videos available for certain products. The catalogs are regularly updated to ensure Dana product information is as up-to-date as possible.
