

## 18.06.2018 Dana Neu-Ulm - Reinz achieves top suppliers status at AGCO

AGCO Your Agriculture Company has awarded Reinz-Dichtungs-GmbH the "Partner" status for suppliers. The gasket specialist from Neu-Ulm, a subsidiary of the U.S.-American Dana Incorporated company, now belongs to the first three suppliers of AGCO with the highest supplier status. Altogether AGCO works together with roughly 2,000 suppliers.

The award was granted in the framework of the 2018 EME Supplier Day at the AGCO plant of combine harvester production in Breganze, Italy, under the motto "We strive for perfect partnerships". Volker Just, Key Account Manager, accepted the award for Dana Neu-Ulm.

AGCO is one of the worldwide leading manufactures of agricultural machines and tractors with the known brand Challenger®, Fendt®, GSI®, Massey Ferguson® and Valtra®.

Teuvo Mehtanen, Director Purchasing, AGCO Power

"Reinz-Dichtungs-GmbH is a company very close to AGCO and who ensures with its gaskets that everything stays in place as it should – whether pressure, oil or temperature. Not only do they give AGCO high priority and work closely with our engineers and researchers, they also ensure year after year outstanding quality with zero ppm values and 100% compliance with requirements. Dana/Reinz is a partner who

supports AGCO with the latest innovations and manufacturing processes and who also supports its customers in markets where there is a lot of competition”.

## Given priority

For Dana/Reinz, the AGCO “Partner” status means more than just an award for a long-standing collaboration that began in the 1970s and has been very intensive and successful for 15 years.

“Being a Partner means that we are given priority in inquiries, especially for new developments, and are the first supplier to be approached. This means that we are involved in new projects very early on and always get the chance to submit our offer early”, explains Volker Just, Key Account Manager, about the benefits.

Currently Dana/Reinz supplies the motors of AGCO among others with three-layer metal cylinder head gaskets featuring wave stopper technology and exhaust manifold gaskets.

## About AGCO
